

## POWER OF ACTION

Botanical name: HIBISCUS ROSA-SINENSIS  
Common name: HIBISCUS  
Medium-sized single bright cardinal-red flower with firm petals, with or without reddish-purple centre.

**Spiritual significance: POWER OF ACTION**

***The power resulting from  
true surrender to the Divine.***

The Mother

**THE** best and most material expression of the psychic that we encounter are flowers. Reflect for a moment on the qualities of flowers - they are all psychic qualities. Therefore, flowers have been chosen as a symbol of inner growth.

Flowers can be used as a subtle and effective way to make progress..... to come in touch with one's psychic or inner being. In this section, the spiritual significance of flowers is therefore given, with the introduction of a new flower each time.

The spiritual name of a flower is the message of its soul. Inwardly the flower is 'an aspect, an emanation, an aspiration and a progress in the evolution of the earth' and each flower has its unique aspiration, its own vibration, its true meaning. Flowers can directly transmit into the psychic all that they contain.
